

Research Project “Language and Law”

Pieter Brueghel d. Ä.: Tower of Babel II
<https://wissenschaft3000.wordpress.com/tag/babylon/>

Objects of research

- Foundation of legal methodology under aspects of philosophy of language
- Language problems in employment law
- Perspectives and problems of English as a lingua franca in law
- Problems of the European Union language law

Key words

- Legal concept formation
- Interpretation of law
- Philosophy of language
- Migrant workers
- Corporate language
- Language policy of companies
- Multilingual legal systems
- English as a court language

- Right to interpretation and translation in criminal proceedings
- Language regime of the European patent with unitary effect

Results:

- Criticism of legal concept formation and interpretation of law under aspects of philosophy of language
- Analysis of legal problems in employment relationships with migrant workers
- Analysis of the possibilities and limits of the introduction of a corporate language
- Analysis of legal problems of the language policy of multinational companies
- Interpretation problems in multilingual legal systems
- Survey and analysis of initiatives taken in different European countries

Project Profile

to introduce English as a court language in international commercial disputes

- Critical assessment of the transposition of Directive 2010/64/EU on the right to interpretation and translation in criminal proceedings into German law
- Critical legal and political assessment of the language regime of the European patent with unitary effect
