

Course Description – Summer 2020

Title	IT-Security (adv. chapters)
Faculty	Computer Science
Professor	Prof. Ralf Staudemeyer, PhD
ECTS	3
Level	Master
Requirements	-
Add. Information	-
Content	This course teaches students to improve their ability to understand and master current developments in IT-Security and Privacy-Enhancing Technologies (PET). Students learn research techniques that they will apply on pre-selected research topics. Aside from a comprehensive literature research, students will develop a scientific contribution. Results will be presented in form of a conference contribution. This includes a presentation and an academic publication.
