

Annex: Eligibility Check

The admission requirements for the Master Mechatronics & Robotics (M.Eng.) are defined in § 5 of the approved study regulation document. Among others, they contain a workload of at least 10 ECTS in mathematics, at least 10 ECTS in physics and an overall workload of at least 90 ECTS engineering and/or natural sciences subjects in your completed Bachelor programme. In order to support the eligibility check of those criteria, we kindly ask you to fill the form, sign it to confirm your data and send it as a hard copy with your application to SUAS. If you have any questions, please do not hesitate to contact "mero@hs-schmalkalden.de".
