

## Course Description – Summer 2021

<b>Title</b>	Mobile Security
<b>Faculty</b>	Computer Science
<b>Professor</b>	Prof. Ralf Staudemeyer, PhD
<b>ECTS</b>	5
<b>Level</b>	Bachelor
<b>Requirements</b>	
<b>Add. Information</b>	
<b>Content</b>	This advanced course teaches the basics of IT-security and privacy when using wireless communication networks. Typical use cases are private communication with smart phones and integrity protection in the Internet-of-Things. Potential topics focus on IT-security and privacy issues in SmartCities.
